

Terms of Service

Black Box AI · Last updated: 2 September 2026

These Terms of Service (“Terms”) govern access to and use of Black Box AI, including the paid membership, free trial, community spaces such as Build Room, and related websites and tools (together, the “Service”). By creating an account, starting a trial, or purchasing a membership, you agree to these Terms and to our Refund Policy.

1. Who we are

The Service is operated by Black Box AI on Whop (whop.com/black-box-ai-hq). Support requests should be sent through Whop messages to Black Box AI.

2. The Service

Black Box AI is a software tool that lets you describe an application in plain language. The Service may plan architecture, generate frontend and backend code, run that code, show a live preview, and help you iterate. Features, availability, and output quality may change as we improve the product. The Service is provided as a subscription software product, not as a custom development agency or a guaranteed outcome.

3. Eligibility

You must be at least 18 years old and able to form a binding contract. If you use the Service on behalf of a company, you confirm you have authority to bind that company.

4. Accounts and access

You are responsible for your Whop account, login credentials, and all activity under your membership. Do not share paid access. We may suspend or terminate access if we reasonably believe these Terms have been breached.

5. Subscriptions, trials, and billing

The paid product is currently offered as a 7-day free trial, then a recurring monthly membership (presently \$10.00 USD per month unless a promo code or other published price applies). Prices, billing periods, and included features may change; changes take effect on the next renewal after we notify you or publish the new terms on the product page.

- If you do not cancel before the trial ends, the first paid charge is processed automatically.
- Memberships renew until you cancel. Cancel anytime from your Whop membership settings. Access continues through the end of the paid period already billed.
- Taxes may be added at checkout where required.
- Refunds are handled under the Black Box AI Refund Policy.

6. Licence to use the Service

We grant you a limited, non-exclusive, non-transferable, revocable licence to use the Service for your own internal or commercial projects while your membership is active. You may not resell, sublicense, scrape, reverse engineer, or provide the Service to third parties as your own product.

7. Your content and generated output

You retain ownership of prompts, project descriptions, and other material you submit (“User Content”). Subject to applicable law and any third-party rights in model providers or libraries, you own the code, designs, and other output the Service

generates for you ("Output"). You are responsible for reviewing Output before you use, ship, or sell it, including for security, IP clearance, and fitness for purpose.

You grant Black Box AI a limited licence to host, process, and display User Content and Output solely to provide and improve the Service. We do not claim ownership of your apps.

8. Acceptable use

You agree not to use the Service to:

- build, host, or distribute malware, exploits, or tools designed to harm systems or steal data;
- infringe intellectual property, privacy, or publicity rights;
- create or operate illegal products, fraud, or scams;
- attempt to bypass usage limits, share accounts, or attack the Service;
- upload content that is harassing, hateful, or sexually exploitative, including any sexual content involving minors;
- misrepresent Output as human-written professional advice (legal, medical, financial) without independent review.

Community spaces (including Build Room) must stay professional. We may remove content or members that violate these rules.

9. Intellectual property of Black Box AI

The Service, name, branding, interface, prompts we supply, and underlying software are owned by Black Box AI and its licensors. These Terms do not transfer any of that IP to you, other than the licence in section 6 and your rights in Output in section 7.

10. Third-party services

The Service runs on Whop and may use third-party infrastructure, models, and hosting. Their terms apply to those components. We are not responsible for outages or changes outside our control.

11. Disclaimers

THE SERVICE AND OUTPUT ARE PROVIDED "AS IS" AND "AS AVAILABLE." WE DO NOT WARRANT THAT GENERATED CODE IS ERROR-FREE, SECURE, COMPLETE, OR FIT FOR A PARTICULAR PURPOSE, OR THAT THE SERVICE WILL BE UNINTERRUPTED. YOU ARE SOLELY RESPONSIBLE FOR TESTING, SECURING, AND MAINTAINING ANY APPLICATION YOU BUILD.

12. Limitation of liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, BLACK BOX AI WILL NOT BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, OR FOR LOST PROFITS, DATA, OR GOODWILL. OUR TOTAL LIABILITY FOR ANY CLAIM ARISING FROM THE SERVICE WILL NOT EXCEED THE AMOUNTS YOU PAID TO BLACK BOX AI IN THE THREE MONTHS BEFORE THE CLAIM. NOTHING IN THESE TERMS LIMITS LIABILITY THAT CANNOT BE LIMITED UNDER APPLICABLE LAW.

13. Indemnity

You will defend and indemnify Black Box AI against claims arising from your User Content, your Output, your apps, or your misuse of the Service.

14. Termination

You may cancel at any time. We may suspend or terminate the Service or your access if you breach these Terms, if required by law, or if we discontinue the product (with reasonable notice where practicable). Sections that by nature should survive

(including 7, 9, 11–13, and 16) survive termination.

15. Changes

We may update these Terms. The updated version will be posted on our Whop legal documents. Continued use after the effective date constitutes acceptance. If you do not agree, cancel before the next renewal.

16. Governing law

These Terms are governed by the laws of England and Wales, without regard to conflict-of-law rules. Courts of England and Wales have exclusive jurisdiction, except that we may seek injunctive relief in any competent court.

17. Contact

Questions about these Terms: message Black Box AI through Whop.

This is a standard template for a digital software membership. It is not legal advice. Have a lawyer review it if you need jurisdiction-specific or investor-grade terms.
